The film was produced by Inverness Films, a production company founded in 2009 by Danny McLaughlin and David Watson, a descendant of 'Bonnie Jock' Watson, who changed sides from the Jacobites to the government during the Rebellion. The Black Prince is produced by Inverness Films, the production company founded by Danny McLaughlin and David Watson. McLaughlin said of their plans for the movie, "It was great to involve the clan people involved in the historical events so many years ago. We wanted to involve them because their ancestor's views are very different to Jacobite supporters at the moment. They don't see it as a romantic thing anymore." They have also sold a book called 'The Other Side of The Robe' which tells the history from a totally different angle from other books on Bonnie Prince Charlie and his family. The film's soundtrack was composed by David Watson, a descendant of 'Bonnie Jock' Watson a Jacobite leader during the 1745 Rebellion. The soundtrack includes a musical score and a number of songs from various eras, including traditional music from Scotland and also popular songs from the Victorian period to contemporary music from the 1960s. In between shooting, McLaughlin and Watson interviewed Scottish descendants of Bonnie Prince Charlie, known as Jacobites. Scottish Jacobites who spoke out against the attempts to reform the history of their family have been challenged by pro-Jacobite groups in recent years. Many of them traced their ancestry to the 18th century Jacobite movement which tried unsuccessfully to remove the House of Hanover from the British throne. McLaughlin says, "We have a lot of different people who speak in our film and a lot of people have been quite vocal about what they want to say about history because they have grown up being told one thing by their families and another thing by other people. In terms of how it affects Scotland, was Jacobitism defeated at Culloden? Was it just a battle? Or was Britain's status as a world power cemented at that point?" The Black Prince movie download helppp contains accounts from descendants who were on both sides of the conflict.
